## About me

I'm a frontend engineer living in Murcia (Spain), with ample experience building performant yet pleasant to see websites.

I build highly optimized, testable, and modular applications based on the latest technologies.

I love to share my knowledge. That's the reason why I impart courses and conferences.

## Skills

JavaScript/ES6/TS	React/Next/Gatsby	State management	Styled Components
GraphQL	RxJS	Functional Programming	TDD
Jest	Mongo	Node	AWS/Firebase
PHP	Shell Scripting	WordPress	P5.js
UI Design	Cypress	Sass/SCSS/Less	Yeoman/Plop

## Experience

### Mindcurv (consultancy)

Frontend Tech Lead / Dec 2020 - Currently

Mainly React stack, but also Vue, Prometheus, Grafana, Open Tracing, Opossum, AWS Amplify...

### bob.io (Lugagge transportation)

Frontend Architect / Mar 2020 - Dec 2020
